Experience

UX Designer | Aviad

July 2025 - Present

- Led website redesign for a game development tool startup, establishing a clear information hierarchy and ensuring WCAG compliance to improve usability.
- Designed a dashboard to track language model performance, helping game developers fine-tune models more efficiently.
- Built scalable Figma components and worked closely with engineers to streamline development handoff and ensure UI consistency.

Product Designer | CMU International Film Festival

January 2024 - May 2024

- Designed and prototyped a digital archive from zero to one, featuring interactive filtering and strategic information display to highlight the festival's multicultural focus.
- Conducted user research studies, including competitor analyses, fly-on-the-wall observations, think-aloud studies, and 15+ user interviews, to define product features.
- Ran 20+ usability test sessions and iteratively refined prototypes based on insights.

Commercial Enterprise Intern | Roche Diagnostics

May 2022 - August 2022

- Mapped customer journey within a complex Point of Care IT process, identifying pain points across the end-to-end experience to improve team understanding and guide commercial prioritization.
- Designed and launched an internal team resource website aligned with Roche's brand guidelines, improving information access and efficiency for 30+ team members.

Freelance Illustrator

May 2021 - Present

- Designed 60+ hand-drawn prints, keychains, and stickers to sell at in-person art fairs.
- Analyzed sales and market trends to improve product offerings and increase customer engagement, leading to a 2000% revenue increase over two years.

Leadership/Projects

UX Designer | SF Civic Tech

July 2025 - Present

- Building SafeHome, a website that helps San Francisco residents assess their home's earthquake safety; working cross-functionally with product, data, and engineering teams.

President | CMU Artist Alley Club

May 2023 - May 2024

- Oversaw executive board initiatives to foster an artist community of 200+ members.
- Organized an art market of 52 artists at CMU's annual anime convention, attracting 1,300+ attendees and increasing event turnout by 2x.

Product Designer & Developer | Maobi

September 2023 - December 2023

- Designed and developed an iOS app that teaches Chinese calligraphy through personalized feedback, filling a market gap identified through surveys and competitive analyses.
- Won 2nd place in the Capital One Mobile App Competition.

Education

Carnegie Mellon University

May 2024

B.S. Human-Computer Interaction & Information Systems
Minor in Business Administration
GPA: 3.9/4.0, University Honors

Relevant Courses:
